Please keep these workshops in mind when
making your travel arrangements for SETA conferences this fall!

SETA Phoenix 2008 – Saturday, September 20th REGISTRATION CLOSED

Argos Hands-On Technical Workshop (9:00 AM – 4:00 PM)

Zach Heath, Evisions

Join Evisions for a full day Argos workshop for DBA and technical people. A computer will be provided to each attendee for hands-on opportunity. Morning session will discuss configuration and best practices while afternoon will focus on building more complex DataBlocks, OLAP, and Dashboards.

Web Programming (9:00 AM – 4:00 PM)

Eveline Taylor, Morgan State University

This workshop will be a hands-on class in which attendees will create packages and procedures of the kind used in Self Service Banner applications, compile them and run them. De-bugging and use of the pl/sql toolkit will be discussed. As time permits, we will explore using Web Tailor to register the code and make it available to the Banner application.

Magic for Teaching & Training (1:00 PM – 4:00 PM)

Nathan Betz, Missouri State University

Learn the use of theater magic as a tool in creating effective training. Nathan Betz has been an amateur magician for over twenty years and has provided technical and end user training for over thirty years. He regularly uses magic to make training session enjoyable and uses special tricks to reinforce concepts.

SETA Dallas 2008 – Saturday, October 4th REGISTRATION CLOSED

Argos End User Workshop (9:00 AM – 4:00 PM)

Zach Heath, Evisions

Full day hands on Argos training for report writers and end users. (Bring your own notebook / laptop computer – power and internet connectivity will be available.) Morning session will focus on how to build and create reports (with examples from Student). Afternoon will focus on how to run and use OLAP and Dashboards.

SETA Charlotte 2008 – Saturday, November 1st DEADLINE TO REGISTER – OCTOBER 24, 2008

Argos Advanced Reporting Workshop (9:00 AM – 4:00 PM)

Registration: \$115 with SETA Charlotte Registration (SCLT08_WRK5C); \$215 Workshop ONLY (SCLT08_WRK5N)

Zach Heath, Evisions

Full day session covering best practices, building, and using advanced Argos capabilities such as Dashboards, OLAP, Multi-form, API, Scheduling, charting, and more. This session is geared towards technical development. (For hands-on training, bring your own notebook / laptop computer – power and internet connectivity will be available.)
